

Sparkie® II Mini Fusion Welder

Sparkie® II - The second generation Mini Fusion Welder.

- Eliminate solder, flux, gas or hazardous material.
- Easy clean up
- No discoloration or annealing

Sparkie II® has twice the power of the original Sparkie for the craftsperson with greater needs. Also the Sparkie II® has a built in meter for precise fusion repeatability and accuracy.

- Superior appearance with durable textured coating
- Two piece fixture holder for greater flexibility
- Capable of fusing up to 6" on center
- Larger work area
- Quick and easy to operate
- Ideal for repairs, samples and small production runs
